ABOUT ME

I am a technology enthusiast with a passion for learning and growing in the field of web development.

My journey into the field of programming began with a desire to understand how the web works and evolved into a genuine interest in creating practical and efficient solutions.

EDUCATION

Web Integrator – OpenClassrooms 2022 – 2024

Creation of complete and responsive web applications, boost web pages, communication interface with the website's backend, performance optimization and website maintenance and basics of web project management.

Certificates:

HTML5 and CSS3

CSS with SASS

Learn to program with JavaScript

Create dynamic web pages with JavaScript

Manage code with Git and GitHub

EXPERIENCE

My experience focuses on school projects where I had the opportunity to learn and apply the fundamentals of web development:

- Improve the interface of a mobile site with CSS animations
- Create a dynamic web page with JavaScript
- Plan the development of a site
- Create a real estate rental web application with React
- Optimize the SEO of a photographer's site
- Debug the site of an events agency
- Implement the front-end of a banking application with React
